

MR. FRENCH IS HEAD OF NEW DURANGO ROAD

OWNS LARGE MAJORITY OF PAID
UP CAPITAL OF EN-
TERPRISE.

PRELIMINARY PLANS MADE

On Filing Articles of Incorporation—
Associated With Mr. French Are C.
E. Mills and Others Well Up in
Phelps-Dodge Affairs.

The Albuquerque Citizen prints a detailed account of preliminary plans of the new El Paso & Durango railroad, of general interest here. The latter is added to by the association of the name of Assistant General Manager French of the Copper Queen, as the head of the new enterprise and the association with his name of those of several others high in Phelps-Dodge affairs. The article confirms the intimations carried in a recent article printed in the Review upon the same subject, at the time of the visit here of Attorney Spiess. The Citizen says: Articles of incorporation just filed at the capitol give the preliminary plans of another railroad for the western part of New Mexico. The name of the road is the El Paso & Durango and all of the work accomplished up to date has been done with much secrecy. The incorporators and promoters are evidently members of the Phelps-Dodge company and the El Paso & Southwestern Railway company which now runs into Bisbee and Douglas, Arizona, tapping the rich copper fields in that section and in northern Sonora.

The main line will begin at Mastodon, in Dona Ana county, at a junction with the El Paso & Southwestern, and proceed northwest through Valencia, McKinley and San Juan counties.

Putman, which is at present an Indian trading post in the southeastern part of San Juan county will be the northwestern terminus of a branch of 120 miles in length which will run to Albuquerque, passing south of the Chaco Mesa and traversing McKinley, Sandoval and Bernalillo counties.

S. W. French, of Douglas, Arizona, holds all of the stock of the company with the exception of one share, held by each of the other six incorporators. The capital stock of the company is \$800,000. According to the papers filed 10 per cent of this amount—\$80,000 has been placed in the hands of the treasurer of the company Abraham L. Hawley. Charles A. Spiess, of Las Vegas, is the attorney for the corporation and Stephen B. Davis, Jr., of Las Vegas, also, the assistant attorney.

The members of the board of directors, four of whom were in Santa Fe, spent nearly the entire day in the office of the Territorial Secretary perfecting their plans. Mr. French, who is said to be the president of the company, was represented at the meeting by Charles E. Mills, of Morenci, Arizona, superintendent of Phelps-Dodge mines at that point, who is one of the directors. Attorneys Spiess and Davis and Treasurer Hawley, of El Paso, were also present. The articles were not filed until shortly after 4 o'clock. Santa Fe is given in the articles as the principal place of business of the company.

The principal object of the company seems to be the hauling of coal from the western part of San Juan county to the mines of southern Arizona and Mexico, where the fuel is scarce and high priced.

It looks as if the surveys which have been made by the Colorado & Arizona from San Juan to Morenci and Clifton, Arizona, have demonstrated that the route contemplated will offer some great engineering difficulties and hence the parties therein interested seem to have taken time by the forelock by the incorporation of a more easily constructed road in order to have a more cheaply administered railroad from the coal fields in San Juan county to southwestern New Mexico and southwestern Arizona.

The main line of the road from La Plata City to Mastodon will be about 400 miles in length and the branch from Putman, San Juan county, to Albuquerque, about 120 miles in length. Partial surveys, it is understood, have been made and more careful and detailed surveys of the line will commence shortly and will be prosecuted vigorously. Mr. French holds 7,994 shares of stock out of 8,000 shares of stock reported as issued and paid up.

FULL SALARY FOR LIFE.

Manager Who Went to Jail For Oil
Company is Retired.

Dallas, Texas, Dec. 20.—E. T. Hathaway, for twenty-five years general manager in Texas of the Waters Pierce Oil Company, was retired today on full salary for the remainder of his life. During the trouble of the Waters-Pierce Oil company with the Texas authorities several years ago Manager Hathaway voluntarily went to jail at Waco for six months.

MINING APPLICATION NO. 956. SURVEY NO. 1847.

United States Land Office,

Tucson, Arizona, Nov. 14, 1904.

Notice is hereby given that in pursuance of Chapter Six of Title Thirty-two of the Revised Statutes of the United States, COPPER QUEEN CONSOLIDATED MINING COMPANY, a corporation organized and existing under and by virtue of the laws of the State of New York, and having its principal place of business in the Territory of Arizona, at the City of Bisbee, in the County of Cochise, in said Territory, and whose post office address is Bisbee, Cochise County, Arizona, by its Attorney in Fact, Walter Douglas, whose post office address is Bisbee, Cochise County, Arizona, has made application for a patent from the United States for five hundred and seventy-eight (578) linear feet of the Catalina Lode, bearing Copper and other metals, the discovery shaft being N. 78 deg. E. 315 feet from corner No. 4 of said lode, hereinafter described, together with surface ground upon and for said lode, as hereinafter more particularly described, said lode and premises being known as the Catalina mining claim, and situate in Warren Mining District, Cochise County, Territory of Arizona, and approximately in Township 23 S., Range 24 E., G. & S. R. B. & M., unsurveyed, and more fully described as to metes and bounds by the official plat, and by the field notes of survey thereof on file in the office of the Register of the United States Land Office at Tucson, Arizona, as follows, to-wit:

MINERAL SURVEY NO. 1847 CATALINA LODE. Beginning at cor. No. 1, the S. E. cor., identical with cor. To the ordinary person a blacksmith shop holds little interest. But there are shops and other shops. The E. B. Mason blacksmith shop at Lowell is the most modern institution of its kind in this part of the Territory. An electric Buffalo blower makes the sparks fly from two forges. A shoeing rack, a late appliance, makes shoeing of bronchos and fractious horses as easy as shoeing old Dobbin, the family horse.
In the vehicle department is a rubber tire machine of the latest pattern. A boring machine for hubs, an immense stock of wheels, from the heavy wagon wheel to the light buggy wheel, and material and jewelry for repair work covering everything necessary for the repairing of any kind of broken or missing part in almost any vehicle. Another feature, just a telephone message to 60 or 24, and a man will call for your buggy or wagon if broken, or your horse if he needs shoeing, and will return it to you promptly. There's nothing too large or too small for us to call for.
